

USES

Use on wood mulch, rubber mulch, pea gravel and sand.

TECHNICAL DATA

Item No.

CK040

Product Type:

Liquid Glue

Color:

White

Odor:

Mild

Viscosity:

Liquid

Packing size:

1 US Gallon

EZ GRIP

LIQUID GLUE FOR LANDSCAPING

- ❖ Extensive Versatility & Strengthened Erosion Protection
- ❖ Quick dry & Durable
- ❖ Easy Application
- ❖ Works with any Landscaping Material
- ❖ Pet and Children Friendly

CROSSCO EZ GRIP provides a powerful and reliable adhesion that keeps mulch wood, sand, rubber, and pea gravel securely in place. By using our EZ GRIP you can effortlessly create beautiful and long-lasting outdoor spaces.

CROSSCO EZ GRIP ensure a powerful bond, effectively keeping mulch in place and protecting for displaces or eroded by heavy rain, wind or foot traffic.

CROSSCO EZ GRIP is a water based formula and Non-Toxic; friendly and safe for areas inhabited by pets, plants and children, even if they come into contact with treated rock and mulch.

CROSSCO EZ GRIP dries within 6-24 hours after spraying (depending on weather conditions) and once the mulch and EZ GRIP dries, it provides long lasting hold for a least 12 month depending on exposure to weather and foot traffic.

IMPORTANT:

Protects the surface that is not intended to be treated; such as walls, mulch edges and/or any other surfaces as needed. Ensure the mulch, stones are dry, clean and free of dust, mud or oil. Shake well before use to ensure uniformity and prevent nozzle clogging. Please spray continuously or intervals of no more than 3 minutes to prevent nozzle blockage. Apply in forecasted warm and dry weather conditions. No rain or wind for 24 hours.

WARRANTY

The warranty of this product is limited only to the replacement of the product if it should fail to comply with standards or specification. If not satisfies with the guarantee, contact Max Chemical, Inc with sale receipt(s).

CAUTIONS

Avoid contact with eyes. In case of contact, rinse with plenty water. It should not be continuous contact with skin. It should not use or mixed with other detergents. Do not ingest, if it occur, do not induce vomits. Call doctor immediately. Keep out of reach of children. For chemical emergency only, call Chemtrec at

1-800-424-9300.

Ensure the cap is tight and gallon is upright and secure before transporting. Do not allow gallon to roll as this may cause cap to loosen and allow leakage to occur. Place on top protective cloth in cargo area of vehicle to prevent damage for accidental spills.

For more safety information see product Safety Data Sheet (SDS)

General Product Information

Application

1. Ensure the base, mulch, and stone are dry, clean and free of dust, mud and oil.
2. Cover all the areas you don't want to treat, including foundations, pavers, edging stones, concrete, etc.
3. Shake the product well before use to ensure uniformity and prevent nozzle clogging. Do not dilute or change.
4. Use a garden sprayer with fan nozzle tip to apply an even coat over the mulch, gravel, rubber or sand. Avoid excessive or under application. Hold sprayer 1-2 feet away from surface.
5. Slowly spray an even layer to ensure a wide coverage. Please spray continuously to prevent nozzle blockage.
6. Allow to dry 1 hours between layers. During this period, avoid heavy foot traffic. Over saturation, lower temperatures or high humidity can extend the drying time.
7. Apply a second coat, if desired for stronger hold. Reapply annually for best results. If settling occurs in container, shake well to remix.
8. **Important:** Test the product on discreet small area (at least 2 sq.ft.) to verify compatibility and penetration to ensure the desired results prior to full application.
9. Use the same equipment, preparation methods, application and environments during the application.
10. Over-saturation or under application can lead to ineffective bonding.

Refer to product Safety Data Sheet (SDS) prior to product use.
The technical data contained herein are true and accurate to the best of our knowledge.
